## Experience

### Morgan Stanley | Parametric

June 2026 - Aug 2026

Platform Implementation Intern

Seattle, WA, USA

- Built a **Portfolio Manager AI Chat POC** (Python, Flask, JS) utilizing an enterprise AI gateway to reduce client meeting prep time from **1-2 days to minutes** by providing instant account-specific insights.
- Engineered a **Python release automation pipeline** featuring an **SFMC email-generation AI agent**, accelerating stakeholder delivery from **1.5 weeks to same-day distribution**.
- Enhanced a **Python-based Salesforce reconciliation script** with robust data validation, successfully **replacing the legacy version** in the team's weekly workflow.
- Mapped **51 Tableau dashboard requirements** to **Salesforce and Jira datasets**, driving the design of **2 operational dashboards** to track SLA, workload, and backlog-aging metrics.
- Delivered a business-critical **SFMC bulk email deployment to 2,000+ clients** using AMPscript and dynamic HTML, ensuring **strict SLA compliance**.
- Modernized **Salesforce CRM security and automation** by redesigning **role hierarchies, permission sets, and sharing groups**, and migrating legacy **Workflow Rules to Flows**.
- Developed custom **Lightning pages, Reports**, and managed core business objects (OMOs, OSOs, Contacts...) to optimize stakeholder workflows and data visibility.

### Barclays, UK

July 2023 - Aug 2025

Salesforce Marketing Cloud Developer / BA3 -> BA4

Pune, MH, India

- **Engineered scalable marketing automations** in SFMC using AMPscript and SQL, reducing human-error risks and increasing **operational efficiency by 5x**.
- **Managed end-to-end campaign execution**, aligning technical architecture, design, and deployments with stakeholder business goals.
- **Led a team of 2-5 developers** in designing and implementing customized, data-driven marketing solutions.
- **Optimized campaign performance** via A/B testing and improved data hygiene for 3 business units by systematically purging inactive customer records.

## Projects
